

Government-owned land, or otherwise.” Title 10 U.S.C. 2662a-4 provides that a transfer of real property owned by the United States to another Federal agency or another military department or to a state must be reported to the Committees on Armed Services if the estimated value of the property is more than \$50,000. A prerequisite to any acquisition by exchange is authority for the acquisition.

(2) *Civil works.* The authority to exchange land or other Government property for private lands or property in execution of an authorized river and harbor or flood control work or improvement is found in 33 U.S.C. 558b and 558b-1.

(3) *Coordination with the Office of Management and Budget (OMB).* OMB requests that each proposal to use Government-owned property in a land acquisition exchange be cleared with the appropriate Associate Director of OMB. Disposal actions where exchange through the authority of the General Services Administration or specific legislation is envisioned will be cleared with OMB prior to filing a disposal report pursuant to 10 U.S.C. 2662. A draft letter to the Associate Director, Office of Management and Budget will be submitted to HQDA (DAEN-REA) WASH DC 20314 stating the requirement for the new acquisition, the description of the property to be exchanged, its estimated fair market value, and a justification for the exchange of that property as constituting its highest and best use. OMB clearance will be required before disposal reports outlining exchange proposals are filed with the Congress.

INVOLUNTARY ACQUISITION BY THE
UNITED STATES

§ 644.101 General.

This Section describes procedures of the Corps of Engineers relating to the involuntary acquisition of land and interests in land on the basis of a physical appropriation or use by the United States. It is applicable to all Division and District Engineers having real estate responsibilities.

§ 644.102 Examples of involuntary acquisitions.

While the Secretary of the Army and Secretary of the Air Force have no authority to acquire interests in real property except under express authorization and appropriation made by Congress, the Government may, nevertheless, in the performance of an authorized act involuntarily acquire an interest in real property, for which the owner is entitled to just compensation. Whenever a plaintiff successfully prosecutes litigation which establishes that an interest in real property has been taken, the interest so taken should be confirmed in the form of a grant, wherever possible. The instrument should be recorded in the public land records and permanently retained in the real estate files, as evidence of the interest taken and as a protection against possible future claims of purchasers for value without notice. No employee or representative of the Corps of Engineers shall intentionally make it necessary for an owner to institute legal proceedings to prove the fact of the taking of his property, as prescribed by Pub. L. 91-646. Examples of involuntary acquisition are:

(a) Damage to real property caused by flooding, saturation, seepage, erosion, or other causes arising out of the construction, operation, or maintenance of an authorized project.

(b) Damage as a result of overflights of aircraft.

(c) Other instances where Government actions result in a restriction of the use of property.

§ 644.103 Litigation Reports.

In those cases where a landowner files suit alleging that the Government took his property or an interest therein, a litigation report should be furnished in accordance with ER 1180-1-1. Litigation reports will be submitted in quadruplicate in cases involving military installations, and in triplicate in cases involving civil works. District and Division Engineers will furnish an additional copy direct to the local United States Attorney in actions in a United States District Court. In addition to the information required by ER

1180-1-1, there will be furnished preliminary certificates of title to properties subject to the taking, covering a period of search of at least 25 years prior to initiation of the action, and indicating the date of acquisition of the plaintiff's interest. Certificates may be procured commercially, or may be prepared by a staff attorney.

(a) *Avigation easements.* Reports on actions alleging the taking of an avigation easement should include the following information together with supporting exhibits:

(1) Permanency of the installation and its designated use;

(2) Dates of commencement of use of the runway involved and of each extension thereof;

(3) Date of commencement of take-offs and landings by regularly assigned aircraft of the type (identify) causing the taking;

(4) Frequency and actual height of flight of the particular aircraft over some portion of plaintiff's property;

(5) Any applicable zoning regulations affecting use of the property;

(6) A drawing at an approximate scale of 1" to 400' showing the location and length of the present runway, its original length, and each extension, and also showing the location of plaintiff's property with relation to the approach-departure zone of the runway and the longitudinal distance in feet, measured along the extended center line from the end of the runway and the lateral distance measured perpendicular to the extended center line, of the plaintiff's property and of any dwellings thereon.

(7) A vertical projection of the drawing at an approximate scale 1" to 100' showing the approach-departure clearance surface at the specified slope ratio and the mean sea level heights of the end of the runway and of the plaintiff's property and any dwellings thereon; and

(8) Name of the person qualified to testify concerning preparation of the drawing.

(b) *Clearance easements.* Litigation reports on actions alleging the taking of a clearance easement will contain the following:

(1) Details of any prior acquisition of clearance easements over the same property;

(2) Statement as to any outstanding clearance easement directives, including criteria for approach and transition zones, status of negotiations, and copies of appraisal reports;

(3) Statement that all acquisition of clearance easements has been stopped, unless their prompt acquisition is necessary to provide for current flight operation; and

(4) Recommendation that there be included in the estate, in the event of settlement, provisions for the clearance of existing obstructions and prohibition against future obstructions, provided that circumstances will permit a delay in the acquisition of a clearance easement until completion of the litigation.

(c) *Appraisal reports.* Appraisal reports will be submitted to HQDA (DAEN-REE) WASH DC 20314 after the Department of Justice has determined the date (or dates) of taking. These reports will reflect the "before" and "after" values of the property, based on the assumption that the United States acquired an easement on that date (or dates).

§ 644.104 Procurement of deed and title assembly.

In any case in which the Court determines that the United States has taken an interest in real property, the Department of Justice will attempt to have included in the findings and in the judgment a precise description of the interests taken. An attempt will also be made to provide in the judgment that payment by the United States will not be required until the plaintiff has delivered a deed or other acceptable conveyance of the interest taken.

(a) *Preparation of instrument.* Upon receipt from the Department of Justice of information as to the nature of the settlement which has been reached, a deed will be prepared, drafted in accordance with § 644.70, covering the estate provided in the judgment.

(b) *Execution and recording of deed.* The Division or District Engineer will obtain proper execution of the deed,
